*Syracuse Builders Exchange
Releases Titanium Toolbox*
**INSURANCE
PROGRAM**

Syrabex.com

The Syracuse Builders Exchange is pleased to offer you a new and exclusive business solutions toolbox, featuring all of your commercial insurance and service needs. The program is powered by The Exchange Agency and offers valuable business service alternatives to all Syracuse Builders Exchange members. Sourced by OneGroup – a leading risk management, insurance and HR firm headquartered in Syracuse, NY – the program is effective immediately.

This new Titanium Toolbox is exclusively for Syracuse Builders Exchange members. It features exclusive access to professionals who know the construction industry. Toolbox highlights include but are not limited to: commercial property insurance, general liability, commercial auto, workers' compensation, umbrella policies and more. Members and enrollees will have access to tailor-fit educational seminars on topics like contractual risk transfer, subcontractor agreements, certificate review and classifications/rates.

Titanium Toolbox will supplement the Exchange Agency's current offerings of group employee benefits. Together with One Group, Builders Exchange members can now purchase all of their business insurance through the Exchange Agency.

I invite all of our members to evaluate your business insurance needs, and to contact Lori Browne or Brett Findlay for an "in-person" review of your company's insurance programs.

Kindest Regards,

Earl R. Hall
Executive Director
